Office of Statewide Initiatives

Academy Director:	Greg Gearheart – 916.341.5892
Leadership Program Director:	Zori Lozano-Friedrich – 916.341.5282
Academy Administrator:	Barbara Andersen – 916.341.5519
Academy Registrar:	Valerie Silva – 916.341.5272

GEOSYNTHETICS AND THEIR PERFORMANCE IN LANDFILL CONSTRUCTION (WQ)

This course consists of nine 30-45 minute sessions on the following topics:

- Geosynthetics Overview
- GSI Overview
- Specification Overview
- GCL Field Sites in Cincinnati
- GCL Panel Separation
- GCL Needle Breakage
- Landfill Expansions
- Landfill Cover Stability
- Landfill Post Closure Uses

Attendees will be introduced to the use and performance of geosynthetics in land disposal design and construction. This will include an introduction to the types of geosynthetics used to the various stages of landfill development and how their use may impact the environmental protection aspects of the landfill. The course will also explore post closure land uses of landfills.

Class Dates/Times/Locations: Go to one of the links below and click on "SCHEDULE" <http://www.waterboards.ca.gov/academy> or <http://trainingweb/>

Instructor: Dr. Robert Koerner, Professor at Drexel University and Director of the Geosynthetic Institute

To Register: please register list on-line at <http://trainingweb/>. If you have questions about the registration process, please contact your training liaison.

If you have special accommodation or language needs, please contact OEA, (916) 341-5880 or email Adrian Perez at aperez@swrcb.ca.gov at least 5 working days prior to the class. TTY/DD/Speech to Speech users may dial 7-1-1 for the California Relay Service.
